Suitable Extinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.

Unsuitable Extinguishing Media: N/A

Flashpoint and Method: ~(57°F) ASTM D56

Flammable Limits: 3.3 to 19.0

Specific Hazards: Always wear self-contained breathing apparatus when fighting a chemical fire.

Special Protective Actions for Fire-Fighters: Flammable liquid and vapor.

6) Accidental Release Measures

Personal Precautions: Be sure to use all necessary Personal Protective Equipment

Environmental Precautions: Keep material out of storm sewers and ditches which lead to waterways.

Land spill: Spills and releases may have to be reported to Federal and/or local authorities. Air spill: Control or stop the loss of volatile materials to the atmosphere.

Methods and Materials for Containment and Clean-Up: For small spills: Absorb liquid and place in sealed container for disposal. Vapors can travel to an ignition source. Large Spills Absorb liquid and place in sealed container for disposal. Vapors can travel to an ignition source. Avoid runoff into storm sewers and ditches which lead to water ways. Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. If this material is released into a work area, evacuate the area immediately.

7) Handling and Storage

Precautions for Safe Handling: Use with sufficient ventilation to keep employee exposure below recommended limits. Provide adequate ventilation for storage, handling and use, especially for enclosed or low spaces. Avoid contact of liquid with eyes and prolonged skin exposure. Do not allow product to contact open flame or electrical heating elements.

Conditions for Safe Storage: Keep container closed when not in use. Store in a cool, dry location. Keep away from sources of ignition.

8) Exposure Controls and Personal Protection

Appropriate Engineering Controls: Use only in a well ventilated area. Use explosion-proof ventilation equipment.
